

# Metalmax Ezilock Shelving

## **Step One:**

Get 2 posts & 1 short rail  
Join together as in Photo #1

## **Step Two:**

Continue with the Shorter rails  
Clip in at the desired level  
& knock down firmly with a rubber hammer

You should end up with x2 of these =  
(End Frames)

## **Step Three:**

Starting at the bottom,  
Clip a longer Rail in to join the 2 end  
frames that you have already made

Remember to start at the bottom &  
Work your way up one side

**Step Four:**

Now start putting in the front rails  
(Remember to start at the bottom)

You now have your framework made  
Simply drop in the Melteca shelves to finish the unit
